MEMORANDUM

TO: Members, Ad Hoc Working Group on the
Research Implications of the [REDACTED] Report

FROM: [REDACTED] 25X1A9a
FOA/WDAC

SUBJECT: Detailed Development of
EDAC Research Requirements

1. At the last meeting of the Working Group it was agreed that the draft paper entitled "EDAC Research Requirements" should serve as the general basis for further discussions on this subject. It was also agreed that I, with the assistance of representatives from all of the agencies represented in the Working Group, would attempt to draft a much more specific statement of EDAC research requirements than is contained in the draft paper.

2. Accordingly, I would like to have suggested detailed research requirements on each of the three major topics mentioned in the draft paper submitted to me as follows:

- a. April 29 - Soviet Bloc Economy
- b. May 6 - Free World - Soviet Bloc Relations
- c. May 13 - Special Free World Aspects of East-West Trade.

3. After receiving suggestions from all the member agencies, I will prepare a consolidated draft for further consideration by the Working Group.
